

25 July 2001

Dear Colleague:

The 2001 Contractor's Meeting for the Air Force Office of Scientific Research program in Unsteady Aerodynamics and Hypersonics will be held at the Hyatt Regency in Reston, Virginia on 5-6 September. A preliminary agenda is included in the general information package.

A CD-ROM of abstracts **for all grants and contracts that are active during any part of FY 01** will be prepared and available at the meeting. The abstracts have numerous uses during the year and are invaluable in communicating what we do and why. Your abstract will serve as your **annual** progress report, due 1 September 2001. These extended abstracts should be no longer than six pages and must be submitted no later than **21 August 2001**. Guidelines for preparing the abstract are attached and a good example of an abstract with all of the required information is also attached. Please follow the guidelines and abstract example.

Abstracts received after 21 August 2001 will not be included in the CD-ROM. Electronic versions of abstracts are requested. If you do not owe a progress report 1 September, I still need your abstract for the CD-ROM by 9 August 2001 if your grant or contract was active during any part of FY 01.

Abstracts, registration, and confirmation are to be mailed to Ms Debbie Axson, AFOSR/NI 801 N. Randolph St. Arlington, Virginia 22203-1977. Registration forms are included in the general information package.

I look forward to seeing you at the meeting. Please do not hesitate to contact Raymond at 703-696-7317 for logistical questions or myself if you have technical questions.

Sincerely,

Steven H. Walker, PhD.
Program Manager
Unsteady Aerodynamics and Hypersonics
Aerospace and Material Sciences Directorate
